# 2021 GOLF INSTRUCTION

## OUR MISSION

Golf is a game that many enjoy but few can master. Our goal at Lakeside Golf Club is to provide you with the skills that allow you to enjoy the game more. Teaching is an art. Success comes from understanding the basic fundamentals and being able to apply these skills during a round.

We understand that golfers have different athletic potentials and limitations, along with varying time that they can commit to the game. As a result, each person's capabilities and lifestyles are recognized when developing our instructional strategies to suit the golfer and not the golfer to a model golf swing.
